

FOR IMMEDIATE RELEASE

4XOR CORPORATION WELCOMES NEW PROJECT STAFFING DIRECTOR

Merritt Island, Fla. (August 1, 2013): Terry Wharton, 4Xor Corporation's President and Chief Executive Officer, welcomed Christine Comai in her new role as 4Xor's new Project Staffing Director today. Comai will be responsible for developing and positioning 4Xor Corporation as a leading consulting services company throughout commercial and federal industries.

"Christine will help us grow our employee body by 50 percent in the next 12 months, 200 new resources," Wharton said. "She has a history of delivering quickly, effectively and efficiently."

Comai has been a senior level talent acquisition specialist for more than 25 years recruiting for companies such as Ajile Human Resources Consulting, Trevera Solutions and Solution Beacon, LLC. She brings expert knowledge and experience of the Full Life Cycle recruiting processes including targeted recruiting, online recruiting, and social media resource recruiting, marketing and public relations.

"As a former EDS Systems Engineering Manager for General Motors, I've negotiated MSA's, delivered upgrades, implementations, for business systems, managed client expectations, staff and change orders to deliver projects on time," Comai said. "I've walked in the consultants moccasins. As a former Consulting Services Director, Corporate Recruiting Manager, advisor to the U.S. Dept. of State on best practices from private practice recruiting strategies, I bring recruiting expertise from many verticals, industries and business strategies."

Comai brings her own style of recruiting with her as well as a very unique nickname – Houdini.

"Two vice presidents at Solution Beacon selected that nickname," Comai said. "No matter what the circumstance or how immediate the need, sometimes two hours, I was able to 'pull a rabbit out of my hat' to 'magically' deliver a perfect candidate in the nick of time and against all odds."

When asked what made recruiting challenging she said, "Balancing work and life. I love recruiting, I would do it nonstop 24/7, so I strive to walk away at least eight hours a day."
