

## San Francisco Business Times Names VOX Network Solutions in Bay Area's Fast 100 for the Fifth Consecutive Year

SOUTH SAN FRANCISCO, Calif.--([BUSINESS WIRE](#))-- **VOX Network Solutions** ([www.voxns.com](http://www.voxns.com)), the leading provider of converged voice and data services, is named in the *Fast 100—Fastest Growing Bay Area Companies* by the *San Francisco Business Times*.

“At VOX, we value the recognition of being named in the *Fast 100* by the *San Francisco Business Times* five years in a row,” said Scott Landis, CEO, VOX Network Solutions. “It reaffirms that we have a winning and enduring strategy for growth by providing our customers with cost effective technology solutions that address their business needs. Our talented and customer centric employees play a key role in this strategy and this achievement would not be possible without them.”

The SF Business Times takes a deep look at each company's financial performance, with only 100 earning the honor of membership in the *Fast 100*. Including this 2013 honor, VOX has now been recognized for five consecutive years based on the company's consistently strong financial performance.

Landis continued, “As a business we have successfully increased sales and created jobs because we understand the importance of building long-term relationships with each of our customers, helping them make smart technology decisions that will enable their companies to grow.”

### About VOX Network Solutions

Delivering comprehensive branded services, VOX specializes in helping companies plan and implement innovative information technologies that accelerate business growth while protecting the bottom line. The company's award-winning vPOP™ program—VOX Process Optimization Program—offers a systematic methodology to measure and improve business operations, capture new financial upsides, as well as, achieve greater customer satisfaction.
